

## *Press Release*

### **Gulf Utility Services selects Harris' inHANCE Utility Solutions**

Gulf Utility Services has selected Harris' inHANCE Utility Solutions, a subsidiary of Constellation Software Inc., to implement its CIS and billing application, IUS.

Gulf Utility Services is located just outside Houston in Spring, Texas and was started in 2005. They currently serve over 3,000 water and sewer customers.

During Gulf Utility Services search for a new billing system they were referred to Harris' inHANCE Division by our current customer Quadvest, L.P. in Tomball, TX. After a detailed evaluation process IUS was selected to replace their current system.

"Gulf Utility Services has requirements to bill for multiple entities. Consideration was given to a hosted solution. After detailed examination the IUS system was selected due to its flexibility, ease of use and feature-rich capabilities" said Jim Valis, Sales Manager for the inHANCE Division.

Harris is a wholly owned subsidiary of Constellation and is a leading provider of financial management and Customer Information Systems (CIS) software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to all levels of local government, public power and water entities as well as school districts throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time.
